21 August 1969

25X1A

MEMORANDUM FOR: Comptroller, OSA

ATTENTION: ☐

SUBJECT: Impact of FY-70 NRO Funding Reductions

25X1A

REFERENCE: ☐ 8966-69, Dtd. 19 August 1969, Same Subject.

1. Referent memorandum solicits comments on subject.

25X1A

2. Comments at this time by Contracts Management Division is of a general nature, but specific comments and recommendations will be submitted to ☐ from time to time as required.

3. Contracts Management Division realizes that due to funding limitations savings must be accomplished wherever and whenever possible. However, it should be recognized that reduction actions such as set forth in reference and as presented during the briefings could have considerable affect upon existing contractual and business relations with OSA Contractors and support they provide to accomplish successful missions. Consequently, it is required that prior to any decisions as to reductions in contractor support effort whether "in-plant" or "out-plant" that such be discussed and coordinated with CMD/OSA in order that advice or recommendations as to the business aspects involved can be adequately provided. It is also required that any matters relative to contractor's support management be brought to the attention of CMD/OSA in order that the Contracting Officer, as the principal business agent for OSA, may review the matter and bring it to the attention of the appropriate officials of the contractor.

25X1A

4. An example as to the impact on contractual relations, etc., would be a contemplated reduction in the "work week at ☐ This could not only have an affect on the existing negotiated contracts between the Government and the Contractor, but in most cases could affect an agreement between the Tech Rep and his employer (the Contractor). For instance, if such a reduced work week results not only in a reduction of personnel, but also in the number of hours an employee expects to get paid for his assignment then the consequences could be that the employee may request a reassignment rather than take a reduction in pay, using as an argument that there has been a breach of contract between his employer and himself.

Page Two

This may not be a good example, but it is an example as to matters that should be brought to the attention of the Contracting Officer so that it could be resolved with the contractor prior to the implementation of a decision.
